Festival of Learning Showcase

Facilitator(s): Dr Daniel Southam, Teaching and Learning Coordinator and Ms Jane Gibberd, Teaching and Learning Coordinator (in absentia) from the School of Science

Strategic theme: Leading in innovative education

Subject Title: Building Excellence in Science Teaching through communities of practice

Contact Details: Daniel Southam: d.southam@curtin.edu.au (phone 2380)

Brief Description:

In 2014 the School of Science established the Building Excellence in Science Teaching (BEST) group to support academic staff with innovation and excellence in their teaching and learning. This group meets regularly on topics of relevance to the community, and has been engaged in systemic community-wide initiatives such as peer-review. In building excellence and establishing this community a number of lessons have been learned, which we’re keen to share. This is also an opportunity for interested academic staff with a science background to learn about and join this group.

Benefits:

Communities of practice, leading innovation, peer review

Time/Day: Monday 16 March 2015, 2:00 – 3:00pm

Duration: 45 minutes

No. of Sessions: One

Venue: Building 300:Room 221

Special Requirements: No special requirements needed
