Festival of Learning Showcase

Facilitator: Associate Professor Lisa Tee, School of Pharmacy

Strategic theme: Leading in innovative education

Subject Title: MyCourseMap: An interactive visual map to increase curriculum transparency for university students and staff

Contact: Lisa x2526 L.Tee@curtin.edu.au

Brief Description:

MyCourseMap is an interactive visual curriculum map which offers a "one stop" information portal for prospective university students displaying the course at a glance showing the horizontal and vertical integration of the curriculum and how units are linked, integrated and relevant to the learning outcomes of the course. The MyCourseMap application once developed can be used to create interactive curriculum map for all courses. You will have an opportunity to experience how it works and to create your own interactive curriculum map in a pilot project later in 2015. During the workshop participants will “play” with the interactive course map and provide feedback through voluntary completion of an online survey.

Benefits:

MyCourseMap will enhance student learning by inspiring excitement and engagement critical to the motivation to learn. This will be achieved by clearly communicating the relevance of the “just in time” and “just for me” curriculum in a format that is interactive. Peer “stories” with the interactive visual map will assist in engaging students to aspire and achieve their professional goals with links to videos of students, teaching staff, and graduates and practitioners in their field.

Time/Day: Friday 20 March, 2015; 9:00 – 10:00am

Duration: 60 mins

No. of Sessions: One

Venue: Building 105:107

Special Requirements: No special requirements are required
