Open Door Teacher

Mrs Sharon Maclean
Lecturer
School of Nursing and Midwifery
Email: Sharon.Maclean@curtin.edu.au

Sharon has been working in the School of Nursing and Midwifery at Curtin for the last three years and has been teaching in clinical and applied bioscience units at Bentley and offshore in Singapore. Sharon is a registered Nurse and Midwife who facilitates student centred learning in the School of Nursing and Midwifery simulation suite. Sharon’s research interests are focused on simulated learning environments, improving student’s critical thinking, application of knowledge to the clinical area and CALD student participation.

Specialty areas of teaching

Teaching in a specialised simulation suite and work integrated learning

Description of teaching to showcase to others

Sharon will showcase how practical, real-life activities engage student learning by using a specialised simulation suite. Students focus on clinical skills, team work, leadership and delegation.
