

Curtinnovation Awards 2024

Project Title *

Limit: 300 characters

Enter a short, descriptive title for your innovation. Maximum 50 characters.

The Innovation

Complete the following value proposition statement, relevant to your innovation:

"Our _____ helps _____ who want to _____ by _____"

For example:

"Our bacterial detection device **helps** the meat industry **who want to** ensure customer safety **by** rapidly detecting dangerous microbes."

"Our pain detection app **helps** aged care centres **who want to** optimise use of pain medication and maintain patient health **by** detecting pain levels in elderly patients who cannot easily communicate."

Make sure each answer is no more than ten words

Our *

What is your product or service?

helps *

Who is your customer or user?

who want to *

What is their need?

by *

How does the product help the customer or user?

Describe your innovation *

Limit: 400 words

Please explain as simply as possible what it is, what it does, and how it works. Mention any existing support (expressions of interest, funding, sales) from current or prospective users, customers or development partners for this innovation.

What problem does your innovation solve? *

Limit: 400 words

Specify the industries, group of people, or potential customers who experience this problem. Address any particular pain points they may have.

What are the advantages of your innovation over existing solutions? *

Specify the value proposition of your innovation using technical and financial terms.

What is the stage of development of your solution? *

- Concept or idea stage
- Simulation or some validation of the idea
- Laboratory validation or equivalent
- Tested pilot scale, prototype or trial
- Product or service ready for market

Please choose one that best describes the level of development that has gone into your solution.

File upload (optional)
