

1

DO I KNOW HOW TO DO THE JOB SAFELY?

Have I undertaken appropriate training for the task?
Do I understand the hazards and controls?

2

DO I HAVE THE RIGHT EQUIPMENT?

Is the equipment in good working condition? Is the equipment appropriate for the task? Can it be used as intended?

3

IS MY WORK AREA SAFE?

Have I accurately assessed the area for hazards? Are the conditions the same as when I completed my initial risk assessment? Do I have effective controls in place to protect me?

IF YOU ANSWER 'NO' TO ANY OF THE QUESTIONS, STOP THE JOB!

Let your supervisor know and work together to find a solution to complete the task safely.
