Age groups

At Carnaby Kids, children are divided into age-based groups to ensure they have the best possible experience, both socially and in developing their skills.

With the support of our experienced coaches, each group takes part in sports and activities tailored to their age and ability level. Coaches adjust planned exercises and games so that every child is appropriately challenged and feels confident participating, regardless of their prior experience.

We use coloured wristbands to identify each group. These colours correspond with the daily schedule, which is displayed on a whiteboard at the program entry each morning.

If your child requires any other medication during the program, please contact us prior to registering. Our staff cannot administer any form of medication. Hand sanitiser is readily available at the program and participants are encouraged to use it.
