The Curtin University Access and Participation Plan 2019 (The Plan) provides a framework for progressing student diversity, equity, and inclusion. The Plan is underpinned by Curtin’s Value of “Respect” and Signature Behaviour of “valuing diversity and promoting equity and inclusion”, and is embedded within Curtin’s Strategic Plan 2017-2020 in which the University states its intent to “be a university of choice for a diverse range of students, including high achievers and those from disadvantaged backgrounds”. The Plan aligns to Curtin’s Diversity and Equity Strategy 2018-2020 the overarching framework for the promotion diversity and inclusion. The Plan addresses all stages in the student life cycle, articulating the key activities at each stage, and sets out how Curtin will meet its obligations under State and Federal equity legislation and policy including expenditure of Higher Education Participation and Partnerships Program funding.

1. Equity Outcomes

1.1. Pre-access (outreach to schools and communities)

Attract students from identified equity target groups to Higher Education (HE), by:

1.1.1. Developing positive attitudes towards HE and inspirational leadership in Indigenous, regional and school and mature age Low Socio- Economic Status (LSES) communities;

1.1.2. Increasing Indigenous, regional, and school and mature age LSES community awareness and understanding of HE as a viable post-school option; and

1.1.3. Supporting capability development of Indigenous, regional, and school and mature age LSES communities pre-university, where this relates to undergraduate course eligibility requirements.

1.2. Access (pre-entry and admissions)

Enrol students from identified equity target groups at Curtin University, by:

1.2.1. Increasing applications to Curtin from Indigenous, regional, and school and mature age LSES people through supporting people in managing and navigating the admissions process;

1.2.2. Providing entry pathways and ATAR bonuses; and

1.2.3. Providing Enabling Programs.

1.3. Participation (transition and progression during studies)

Retain students from identified equity target groups, by:

1.3.1. Facilitating a HE environment that is inclusive and supportive of Indigenous, external (online) and LSES students;

1.3.2. Supporting Indigenous, external (online) and LSES students to succeed in their studies; and

1.3.3. Facilitating a positive student experience for Indigenous, external (online) and LSES students.

1.4. Progress and attainment (successful completion and preparation for graduate employment).
Place graduates from identified equity target groups in employment or further study, by:

1.4.1. Supporting Indigenous, external (online) and LSES students to identify and develop realistic but aspirational goals for their studies and career;
1.4.2. Providing opportunities for Indigenous, external (online) and LSES students to gain practical experience related to their studies and career goals, through work integrated learning, volunteering and employment opportunities; and
1.4.3. Supporting Indigenous, external (online) and LSES students to gain skills and experience that will position them as attractive to employers.

2. Key Performance Indicators (KPIs)

The specific KPIs for the Access and Participation Plan 2019 are to increase:

- Number of domestic undergraduate students from nominated equity target groups as a percentage of total domestic undergraduate students;
- Retention rate of domestic undergraduate students from nominated equity target groups; and
- Number of domestic undergraduate completions from nominated equity target groups.

3. Key Activities

Table 1 lists the key activities that will deliver an increase in the access, participation and success of people from a low SES background:

<table>

*Addressing Higher Education Access Disadvantage

4. Evaluation and Reporting

All initiatives implemented through this strategy (regardless of their source of funding) are required to report to the DVC Academic (or nominee) on the demonstrable impact for equity target groups.
of that initiative, and achievement/progress towards proposed outcomes. Evaluation and reporting occurs on an annual basis co-ordinated by the Diversity and Equity Unit, which compiles the University’s Institutional Performance Portfolio and HEPPP Reports to the Commonwealth, as required. The HEPPP report is submitted to the University’s Planning and Management Committee and Council for noting each year.

5. Partnerships and Collaboration

Implementation of the Access and Participation Plan 2019 involves delivery of a range of programs, campus and regional visits, mentoring, leadership, learning clubs, and pre-release programs, in collaboration with a range of external partners including:

- Primary and Secondary Schools;
- Government Departments (such as the Department of Corrective Services); and
- Community Organisations (such as the Australian Indigenous Mentoring Experience (AIME)).

The University works closely with other Higher Education providers across Western Australia to ensure associated programs are complimentary and reach effectively into regional and isolated areas of the State.
